2. I created a static store homepage

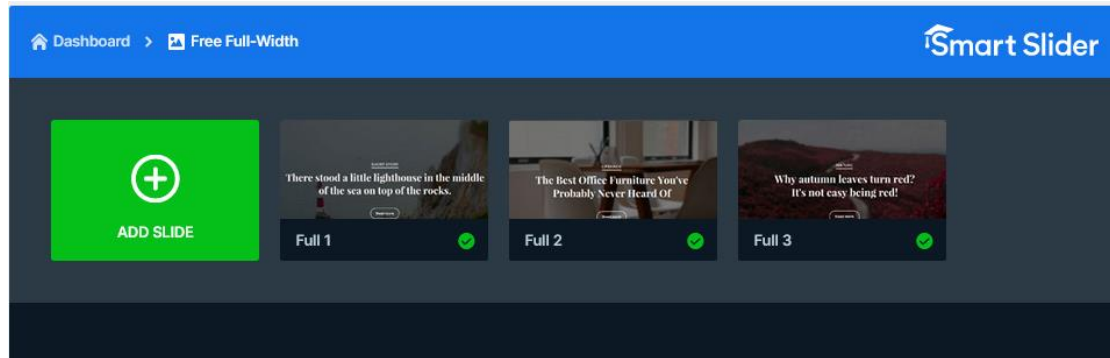

3. I applied a suitable theme for the store:

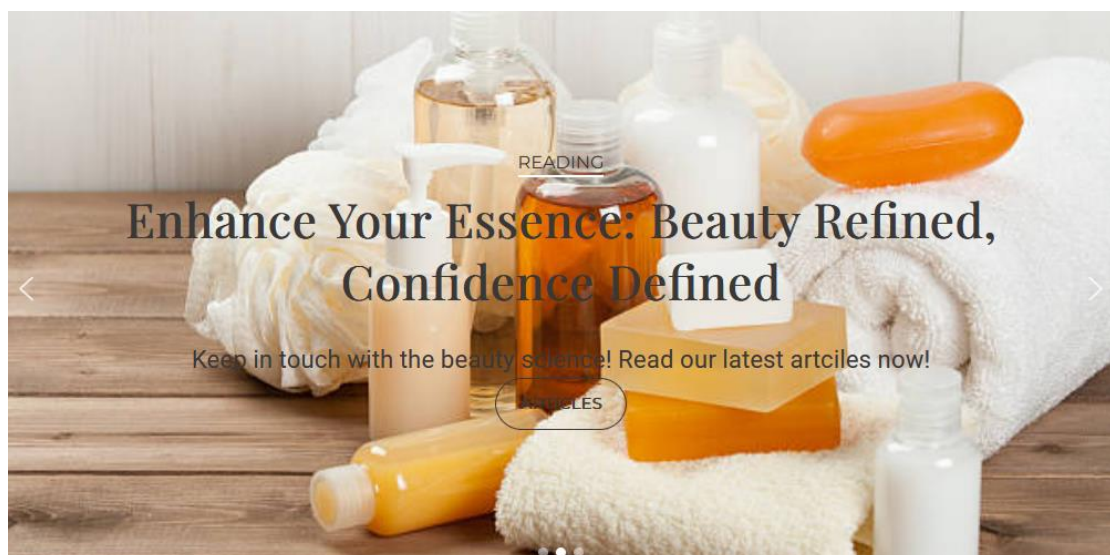

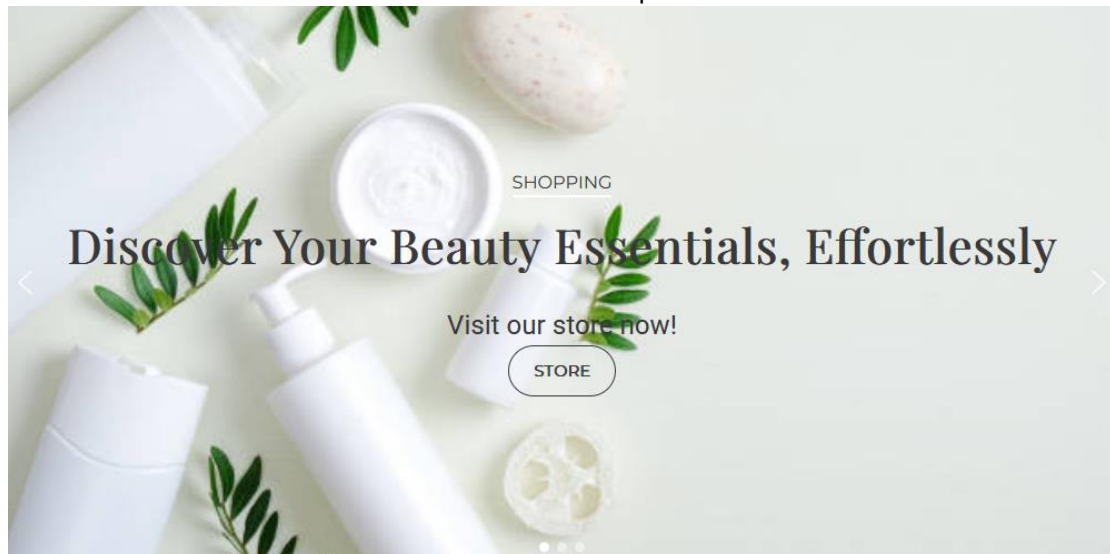

And I created his own logo:

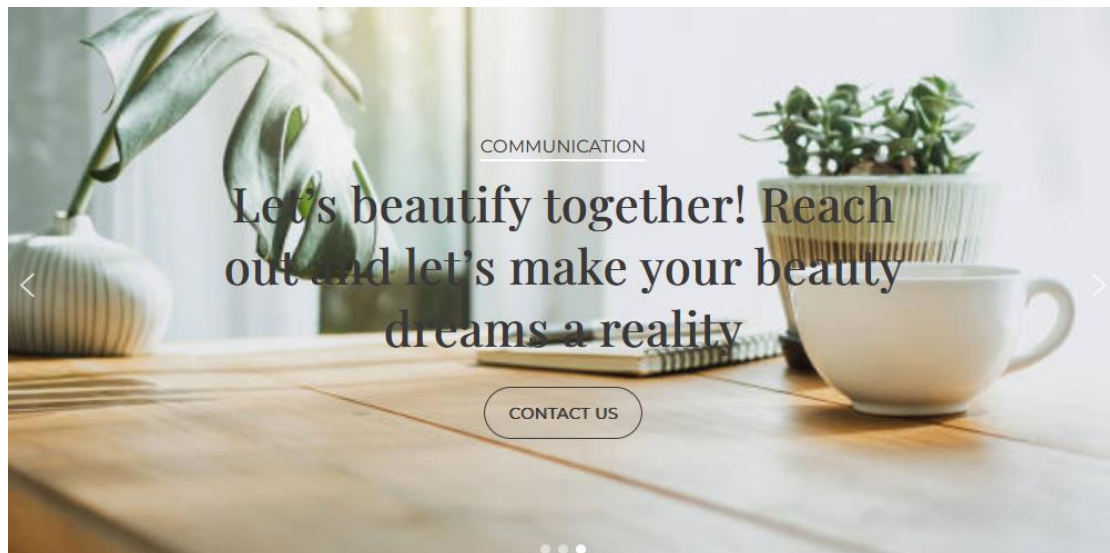

4. To create a slideshow, I installed the plugin "Smart Slider":

I created 3 slides which contain links to the featured species:

5. I imported a total of 36 products evenly distributed across the 6 categories I created. For each product I gave a name, description, price, stock and image:

18. For the security of the site, I installed the plugin "All in One WP Security".

Your dashboard shows you how many points you have collected, depending on how many protection measures you have taken for the site. Some of them are:

- User login: max login attempts, login retry time period, minimum lockout time length, maximum lockout time length etc
- Notify by email the users that have been locked out, instantly lockout specific usernames
- Basic firewall protection
- Backup htaccess files
- Force logout after certain amount of time
- Database backup
- Brute force: localhost/wordpress/voncroy
- Block spambots from posting comments, move these comments to trash.
